

TSOUKALAS DIMITRIOS, MD

Specialized in General & Family Medicine, Assoc. Member of the World Academy of Sciences, President of the European Institute of Nutritional Medicine

Dimitris Tsoukalas, a graduate of the Medical School of "Universita 'degli Studi di Napoli Federico II" in Italy, completed his specialization in General & Family Medicine at the Hippocratic Hospital of Athens. He is an Associate Member of the World Academy of Sciences, Scientific Director of the Medical Group Metabolomic Medicine® Switzerland and President of the European Institute of Nutritional Medicine. He has been awarded the highest recognition and Honorable Mention by the Greek Ministry of Health for his contribution in primary health care and in 2017 was recognized as an outstanding reviewer by the scientific publishing organization ELSEVIER for contributing to the reviewing of scientific articles in Food and Chemical Toxicology. He collaborates with professor Tsatsakis at the Faculty of Medicine, University of Crete and researchers from international academic institutions such as the Stanford University, La Trobe, Melbourne, University of Brescia and Craiova Medical School in the clinical application of Precision Medicine, Metabolomics and telomere biology in autoimmune and chronic diseases.
